Provincial Health Cluster, KP

- Health cluster is activated with its first post-earthquake meeting held today at DGHS office Peshawar
- Health cluster is led by health department and co-chaired by WHO comprising of UN agencies, National and International NGOs
- Relief activities were immediately carried out by Health cluster partners in the districts of Shangla, Swat, Dir Lower, Buner and Tor Ghar
- Support for ambulances and medical personnel was provided by partners in Swat, Shangla, Lower Dir, Buner and Tor Ghar
- ICRC has provided surgical emergency kit to Lady Reading Hospital and one kit is being provided to Saidu Hospital Swat
- UNOCHA together with all UN agencies/clusters is in process of conducting a rapid coordinated need assessment in the earthquake affected districts, which will capture the immediate needs in health and other sectors. UNOCHA is in negotiation with the P/FDMA and military authorities to finalize the plan for assessment and to execute
- Next cluster meeting is scheduled on Thursday, 29th October, as follow up of the first meeting and planning for future activities
- Importance of ensuring shelter, food and Water & sanitation services to the affected population was highlighted and its implication on health were discussed
- It was agreed that WHO will coordinate with other clusters for provision of appropriate services in this context

Update from sub-office Balochistan

No damages and deaths reported from Balochistan (source: PDMA and DGHS office). Close liaison with PDMA and health authorities is being maintained for assessing health needs.

Update from sub-office Punjab

- **Five** died, one each in Chakwal, DG Khan, Kasur, Mianwali and Rawalpindi districts
- **75** were reported to be injured
- No health facility is damaged

UN Humanitarian Country Team

The following was decided today in the UNCT meeting:

- Continue provision of humanitarian assistance without waiting for official request from the national or provincial governments
- Multi-cluster initial rapid assessment planned for KP
- Communication messages to be developed to reach out to affected population
