A Community of Practice (CoP) among Mental Health and Psychosocial Support (MHPSS) teams across the Middle East region, with a special focus of interest on MHPSS programming and activities within the scope of the Syria and Iraq Refugee and IDP crisis.

With MHPSS projects being designed, planned and implemented across the region, it is important to connect field teams to improve the sharing of knowledge and encourage connections between mhpss.net members that share common interests.

While the groups that are focused on the Middle East remain valuable tools to provide MHPSS related resources, the CoP serves as a complementary tool that allows user friendly engagement with other MHPSS Middle East based members, fosters discussions aiming at improving different aspects of programming and provides facilitation of different learning opportunities as webinars, newsletters, etc.

All MHPSS practitioners that are working in the context of the Syria and Iraq crisis! Whether you are working directly with beneficiaries, on the MHPSS programmatic side, conducting research or even working on policy - this CoP is for you! Arabic speaking and local practitioners are specifically encouraged to join and contribute to context-specific forums.

With MHPSS projects being designed, planned and implemented across the region, it is important to connect field teams to improve the sharing of knowledge and encourage connections between mhpss.net members that share common interests.

While the groups that are focused on the Middle East remain valuable tools to provide MHPSS related resources, the CoP serves as a complementary tool that allows user friendly engagement with other MHPSS Middle East based members, fosters discussions aiming at improving different aspects of programming and provides facilitation of different learning opportunities as webinars, newsletters, etc.

While there are multiple dedicated people within the MHPSS.net team that are working to develop and maintain a user-friendly online space, the members of the CoP remain in the core of shaping the content and strategy through identifying learning needs, proposing strategies of engagement and meaningfully contributing to the discussions.

WHAT IS THE COP?

WHO IS IT FOR?

WHY JOIN?

HOW IS IT DIFFERENT FROM OTHER GROUPS ON MHPSS.NET?

WHO MANAGES THE COP?

HOW CAN I CONTRIBUTE?
