

MHPSS surge support roster model

Application of criteria to DSS

Multiple contexts (refugee, migration & IDPs)	Yes can be deployed to multiple contexts
Multiple types of emergencies	Yes possible – depends on the request coming from agencies
Allows for quick deployment	Yes, possible for a person to be deployed within 48 hours.
Long (3+months) and short 1-12 weeks deployment lengths	Yes, possible times are for 1 week, up to 3 months and up to 6 month deployment lengths (flexible)
Neutrality	Mechanism is supported through the Dutch Enterprise Agency so not subsumed under any one agency. The Technical position would be embedded within a RG member agency but work on behalf of the whole IASC MHPSS RG.
Cost to set up and cost to sustain	Free to set up (costs borne by Dutch Government and Dutch Enterprise Agency). Initial 3-yrs funding. EUR 2.500.000 (1 st year EUR 600.000, 2 nd year EUR 0,9 mln, 3 rd year EUR 1.000.000)
Host 'agency' services	Setting up, management & capacity building of roster members, contracting, signing MoUs with MHPSS RG members, travel, insurance, stipend/ salaries.
Legal bottlenecks	MoUs need to be signed between DEA and receiving MHPSS RG member
Set up time	3 months?
IASC MHPSS RG ownership and input	Steering Committee made up of IASC MHPSS RG member agencies
Vetting roster members	Done by Technical person responsible for the roster (along with Admin person)
